

Team Management Solution Team Management Solution

Team Management Solution is a Web Based Contact Management solution that is very easy to use and not cluttered with Features and Functionalities that confused the non technical agent. TMS has been designed around the needs of the Agents by experienced Agents who are tired of taking classes to learn how to use software. We make it easy for you with advanced technologies.

Team Management Solution is a web based contact, scheduling and task management solution that you or your entire team can log into from any computer. TMS enables you or your entire team to work together from any location. Our technically advanced solution is very easy to use not like other solution on the market today. TMS is designed to simplify and help you track your clients, schedule your days and manage tasks through out the listing process of the houses. The features of Team Management Solution are as follows:

TMS Features:

- Announcements
- Contact Management
- Listings Management
- Cost Management
- Scheduling
- Task Manager
- Document Library
- Mass Mail out
- Mass Emails
- Web based
- Extremely easy to use

If you want to test TMS, please copy and paste www.reaos.net/tms/signup.php into your web browser. I am sure you will be very pleased with how easy TMS is to use. Not like those others solution on the market for years.

Thanks,

REAOS Team
